The diagram is a detailed site plan of the 21st Didactic Circle school of infancy "Marco Aurelio". It shows the building's footprint, which includes several interconnected rectangular and hexagonal structures. The plan is set within a larger context of streets: "VIA" is at the top, "VIA M. AURELIO" is at the bottom, and "CAMPO DA CALCIO (Spazio a Cielo Libero)" is to the left. The plan highlights five main exit points, labeled US 1 through US 5, each marked with a green exit door icon. From these exits, green dashed lines with arrows indicate the horizontal evacuation routes. These routes lead to two designated safe areas, marked with green group of people icons and labeled "LUOGO SICURO N°1" (located near the bottom left) and "LUOGO SICURO N°2" (located near the top left). The plan also shows various internal corridors, rooms, and outdoor spaces, including a large rectangular area on the right. The overall layout is designed to show the safe and efficient evacuation of all occupants from the building.
